Subject: Application for the Post of Computer Science Teacher

Dear Sir/Madam,

I am writing to express my keen interest in the position of Computer Science Teacher for higher secondary classes at your esteemed institution. I hold a Master's degree in Information Technology from Vels University, Chennai, and possess a strong academic foundation along with hands-on experience in web development and data analytics.

Throughout my academic and project experience, I have developed practical knowledge in Python, HTML, CSS, PHP, and database management—skills that I am passionate about sharing with students to help them build both conceptual understanding and real-world application confidence.

My teaching philosophy centers on making technology engaging and approachable for students by combining theory with coding practice, problem-solving activities, and interactive digital learning tools. I strive to foster curiosity, creativity, and independent thinking among learners.

I would be delighted to contribute to your school's commitment to quality education and technological excellence. Please find my attached resume and portfolio for your review. I look forward to an opportunity to discuss how I can add value to your academic team.

Thank you for your time and consideration.

Warm regards,
Ms. Saraswathi A
